IN CHANCERY.

Between William Selleck, Plaintiff; and Henry Simpson, William Edwin Elliott, Elias Wright, Helen Blanche Elliott and Ellen Elliott, Defendants.

UPON READING THE BILL FILED HEREIN ON THE First day of May, instant, and the affidavit of Henry Simpson, one of the above named Defendants, also filed herein on the first day of May, and upon hearing Robert Edwin Jackson, Solicitor for the above named Plaintiff, I do order that the above named Defendants, Henry Simpson, William Edwin Elliott, Elias Wright, Helen Blanche Elliott and Ellen Elliott do shew cause within 12 months from the date of this order, why a decree should not be made in this cause vesting in the said Plaintiff the legal and equitable fee simple in all that piece or parcel of land known as Suburban Lot number Thirty-Six, upon the Official Map of Esquimalt District, Vancouver Island, excepting a certain portion thereof, North-east of a road known as Jones' Road, which in the conveyance thereof from the above named William Edwin Elliott to the said Henry Simpson, was excepted and reserved for the use of the said William Edwin Elliott. And I do further order that a copy of this order be published for three consecutive months at any time prior to the expiration of the said twelve months in one of the Daily Newspapers, published in Victoria, V. I., and that a copy of this order, and also of the said bill, be sent through the Post Office, to the above named Defendant in registered letters to be mailed at the General Post Office in the City of Victoria aforesaid, directed to the Defendants, at the places of residence in the said Bill mentioned.

CURES AND COMFORT FOR THE BED-RIDDEN.

—BY

Holloway's Ointment.

This wonderful Ointment acts like magic in relieving and curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structures It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible specifics.

Diptheria, Bronchitis, Sore Throats, Coughs and Colds.

This class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway's Ointment, assisted by his celebrated Pills, which act so powerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained

Dropsical Swellings.

Beware of this dangerous and stealthy complaint which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for years from Piles and similar complaints when they might use Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailment to anyone.

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a thorough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore Throats,
Bunions	Elephantiasis,	Skin Diseases
Bite of Moschetos	Fistulas,	Scurvy,
and Sand Flies,	Gout,	Sore Heads,
Coco-bay,	Glandular	Tumours,
Chigo-foot,	Swellings,	Ulcers,
Chilblains,	Lumbago,	Wounds
Chapped Hands,	Piles,	Yaws,
Corns, (Soft)	Rheumatism,	

Sold at the establishment of PROFESSOR HOLLOWAY 244 Strand, (near Temple Bar,) London; and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices; 1s 1½d, 2s 9d, 4s 6d, 11s, 22s, and 33s each Pot.

A Triumph of Science

AND

THE LIGHT OF THE WORLD

Dr Maggiel's

PILLS AND SALVE.

These Life-giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these

Life-Giving Pills!

Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and reinvigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A VERY FOUNTAIN OF YOUTH.

For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle aged, they will prove most invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon, sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to vigor and make youth ever

An Eternal Spring!

It was left for this day and hour to realize the dream, and show in one glorious fact, the magic that made it fair.

These Famous Remedies

Cannot stay the flight of years, but they can force back, and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

FOR BILLIOUS DISORDERS

Nothing can be more productive of cure than these Pills Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest

Vegetable Compounds.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

For Cutaneous Disorders

And all eruptions of the skin, the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil!

DR MAGGIEL'S PILLS

Invariably cure the following Diseases.

Asthma,
Bowel Complaints,
Coughs,
Colds,
Chest Diseases,
Costiveness,
Dyspepsia,
Diarrhœa,
Dropsy,

The News.

Within the past forty-eight hours, intelligence of more than ordinary interest and importance has winged its way hitherward by wire. It is not because the distance traveled and the present expense of transmission renders tersity a *sine qua non*, that we should lightly pass by an announcement so momentous as the maturity of the plan for the confederation of British North America. "It is announced to-day," Thursday, August 15th, says a cable item which we published on Saturday, "that plans for the confederation of the British Provinces of North America have been definitely arranged by the Government." There is no reservation, no ambiguity in this statement. If it means anything, it means nothing more nor less than the independence of British North America. The new ministry have shuffled the colonial cards, and the first insight they give us of the game they intend to play augurs well for the future, should the Cabinet succeed in retaining the public keys. We have before said that a Tory government may prove our best friends, as they have previously shown, paradoxical though it may sound, more liberality in their colonial administration than the Liberal party. They feel a wholesome English pride in their distant countrymen, and glory in seeing the Anglo Saxon uplifting his head and wielding a strong arm in his ultra-mundane home. Their ears are open to the grievances, remonstrances and requirements of the colonists, and their colonial policy was long since declared by their veteran leader, when Lord Stanley, to be "to sever the tie binding parent and offspring the moment the desire was expressed by a majority of the British colonists, but, till then, to expend the last shilling, if need be, in defending any of the Queen's possessions." The confederation scheme has for some time been the pet theory of prominent men in Canada, and has now taken a firm hold of the public mind. The maritime Provinces, though at first stoutly opposed to it, have been gradually yielding ever since the successful mission of the Hon. George Brown and the other delegates to England, and at the last elections the "vexed question" was finally settled by the triumph of the Confederation platform. In the perfection of one of the grandest measures that modern colonial history will record, we may naturally enquire, seeing that we belong to British North America, whether these Colonies are to be embraced in the Confederation? We think not. Situated as we are at a remote distance from Canada, and separated by a barrier so formidable as the Rocky Mountains, it is questionable whether it would suit their interests or our own to be included just now in the *bund*; at any rate we have never expressed any desire to become members of this great new Anglo Saxon nationality, and the most that we can expect or ask under existing circumstances, is that a place be reserved for our admission when we find ourselves prepared to forego the protection of the Mother Country and to assume the conditions and responsibilities imposed by the compact.

From the Continent, the news is satisfactory to the cause of peace. Matters were assuming a threatening appearance in relation to the claims of France to the Rhenish Provinces, but the scheming Emperor has, for the nonce, found more than his match in the Prussian Minister, and has been most effectually checkmated. The aim and design of Napoleon throughout the complications between the three Powers lately at war, were truly surmised, but he has been cleverly out-generalled, and instead of extending the frontiers of France at the termination of the war as he fondly hoped, without striking a blow, he finds himself snubbed by Bismarck, and his draft on Prussia for territory, dishonored and returned to him with refreshing *sang froid*. With his usual tact and prescience however, the Emperor deems it wiser to make a merit of necessity, to "acknowledge the corn" and "knuckle down," by renouncing in the interests of peace, his supposed claim to the coveted Rhine territory. One of the good effects of the present order of things in Central Europe to which we recently alluded, has shown itself. Prussia is now powerful enough to preserve the balance of power, and to resist any encroachment, either on the East or West of her present boundary line; and when Louis Napoleon tells the world that he has found it out, the rest of mankind may accept it as an indisputable fact.

The process of annexation and reorganization, continues in Prussia with evident success, but it was reported that hostilities would be resumed between Prussia and the Kingdom of Bavaria. What King Maximilian can hope to accomplish however, by prolonging the struggle, we are at a loss to conceive. Possibly the renewal of war referred to in the telegram, has reference to the threatened enforcement by Prussia of the contribution levied at Frankfort. A commission had, however, been appointed at Berlin, to enquire into the levy.

President Johnson has sounded the first note of warning to the Emperor of Mexico by his proclamation issued at Washington on Friday, annulling the decree closing the port of Matamoras, and Max will do wisely to take the hint and pack up his traps before he gets a walking ticket given.

Cholera is making rapid strides in the States. At Cincinnati, the number of deaths in one day (Friday last) reached *sixty-seven*.

SPECIAL TO THE COLONIST AND CHRONICLE.

SATURDAY'S DESPATCHES.

Europe.

Vienna, August 15.—Recent negotiations between the Emperor and the Hungarian leaders, is not permitted to be published. The Emperor has returned from Pesth.

Berlin, August 14—The Swiss troops lately guarding the Italian frontier have been disbanded.

The Austrian headquarters in Tyrol are fixed at Bergo.

London, August 14.—It is expected that the Bank of England rate of discount, will be reduced from 10 to 8 per cent. this week.

London, August 16th—Evening.—The following were the official quotations at the close of business to-day on the London Stock Exchange—Consols, for money, 87⅞; U. S. 5:20's, 68.

Paris, August 15th.—The Emperor Napoleon received the Prussian Ambassadors to-day at the Tuileries, and the Minister delivered to His Majesty, the reply of the King of Prussia to the note demanding an extension of the frontier of France to the Rhine. The State paper declares the demand is inadmissible and that Prussia will not accede to it. The Emperor Napoleon replies that he had made the demand in order to satisfy public opinion in France on the subject of the rectification of the frontier line. He deemed it a just demand, but at the same time acknowledged the fairness of the argument used by the Prussian cabinet in its reply of refusal. He said the relations at present existing between France and Prussia, should not be disturbed; in any case, he hoped that Prussia would not overstep the line.

Paris, August 16th.—It is officially stated to-day, that the French Government has receded from its demands made on Prussia for the extension of its frontier to the Rhine. France does this in the interest of peace, which she desires far more than territorial aggrandisement. The hope is also expressed by the official journal, the *Moniteur*, that Prussia will not press her project of annexation with the German States south of the Main.

California.

San Francisco, August 18.—Gold is steadily advancing in New York to 152; Sterling, 107¾.

Arrived—Ship Fleetwood, 163 days from New York; ship Vistula, 160 days from New York; ship Nicholas Biddle, 12 days from Port Discovery; British ship Cape Clear, 139 days from Liverpool; British ship Empress of India, 50 days from Manilla; British bark Caroline, 50 days from Manilla; bark Bernice, 28 days from Honolulu, with cargo of sugar.

LAST NIGHT'S DESPATCHES.

Eastern States.

St. Louis, August 17.—The cholera is decreasing. There were 12 deaths yesterday. Business is lively and few have left the city.

Cincinnati, August 17.—67 deaths by cholera yesterday.

New York, August 17th.—Gold steady; Government Stocks strong and advancing. Liverpool freights are active and firmer.

The total mortality in Brooklyn during the past six weeks, was 1819 deaths, including 259 cases of cholera. Nothing has been received to-day by the cable. There is trouble on the land line. Hope to get something soon.

Washington, August 17th.—The President has issued a proclamation, declaring that, Whereas, war exists in the Republic of Mexico, aggravated by foreign military interposition, and whereas, the United States is neutral, and whereas Prince Maximillian claiming to be Emperor of Mexico, has published a decree closing the port of Matamoras and others to belligerents; and whereas, this decree is unsupported by competent force, therefore, the blockade is absolutely null and void as against citizens of the United States, and all claims which shall be made to enforce the same against the Government or citizens of the United States, shall be disallowed.

Sandwich Islands.

By the bark Cambridge, 17 days from Honolulu, we have Hawaiian dates to July 28th:

The murder of Julius Duchet, Chancellor of the French Consulate, continued to be the absorbing topic.

The Honolulu *Advertiser* denounces the Hawaiian Ministry as unworthy the confidence of the nation, and calls upon them to resign. It is particularly savage on Attorney General Harris.

The King in his reply to the speech of our [U. S.] representative, General McCook, said, "political relations between the United States and the Kingdom have been most satisfactory, and I have no doubt your friendly efforts will perpetuate the harmony long undisturbed between both countries. I receive with pleasure your letter of credence, and assure you of our earnest desire to co-operate with you in promoting commercial intercourse mutually advantageous to the republic of the United States and the Kingdom of Hawaii.

California.

The Sacramento sailed for Panama to-day with 280 passengers.

San Francisco, August 18th—Sterling 107½. This decline is attributed in part to the sailing of the European steamers from New York to-day, the market for exchange and bullion closing yesterday.

The Bank of England has reduced the rate of interest to 8 per cent.

BELLINGHAM BAY
Coal Mines.

As these Mines have gained considerable celebrity on account of the immense deposits of coal found in them, and having personally visited the locality and tested the quality of the coal for steam purposes, I am induced, at the solicitation of several friends, to give a description of the mines and their productions.

The Mines are situated in Washington Territory, on the banks of the bay from which they derive their name. The bay affords good anchorage and a safe harbor, accessible at all stages of the water for the largest class of vessels. The improvements at the mines, besides the necessary work-shops, dwellings &c., consist of a Wharf, extending some 250 feet into the Bay, alongside of which, vessels taking in a cargo of coal, can lie with perfect safety at low water. A rail-way is laid on the wharf to three large covered shootes, in which are screens, where the cars are loaded and taken to the vessel. These shootes are supplied from the Mines, to the mouth of which is another rail-way. The coal is drawn from the Mine by a powerful steam engine, up an incline of 480 feet, and taken to the shootes by mules and dumped, where it is thoroughly screened. At the termination of the incline, is another railway, extending into the Mine on a level of some 2500 feet. The cars are placed on this rail-way at regular distances of 18 feet apart, and receive the coal from the chambers which are cut into the seam on the right, leaving solid pillars of the above dimensions as supports. On the left of the rail-way, and extending its entire length, is a gutter some twelve inches below the level, which receives the water dropping from the Mine, and the visitor is agreeably surprised at the cleanliness and dryness of the works. Still further to the left, and extending the entire length of the mine, is a box through which a current of air is forced to supply the different chambers which are being worked. The entire appliances and arrangements in and about the Mine at the present time, are such that with sufficient force, 250 tons of coal can be turned out daily; but notwithstanding this, the proprietors purpose increasing and remodeling the present facilities, so as to enable them to raise double that quantity.

To say that the Bellingham Bay Coal Mine is inexhaustible, will hardly convey to the reader an idea of the enormous amount of coal that lies embedded in these Mines, and it is only when figures are brought to bear, that the magnitude of the carboniferous stratum can be realized, extending as it is supposed to do for miles, at a uniform thickness of sixteen feet.

The following is the result of the steaming qualities of the Bellingham Bay Coal as tested on the Fideliter on her recent trip from the mine. Thirteen hours under steam, in thick fog, from the Coal Mine to Olympia, distance about 110 miles, burning 5 tons 100 lbs., making no clinker whatever, only a little more ash than Nanaimo, and no black soot flying over the deck. From Olympia to Victoria, distance about the same, stopping at Port Townsend one hour; the run was made in 13 hours, burning 3¼ tons of coal and one cord of wood.

THE DOUGLAS DIGGINGS—We were shown on Wednesday a sample (2½ ozs.) of gold from the new diggings on the Lillooet river, 24 miles out of Douglas. The gold was sent down by Mr. J. Franklin, and is fine flour gold, very similar in appearance to that taken from the bar diggings of the lower Fraser. We understand the few men who are at work are well satisfied with the appearance of things. The miners are engaged in bringing in a ditch. The hon Mr. Brew has just shown us a letter from Chief Constable White, in which the writer says respecting these mines "there is no humbug at all about the gold. Perret, Gowan and Chapman are taking from four to six dollars per day from the bench alluded to in my report." *Columbian.*

LOGIC—Mr. Bishop objects to the use made of his name in the cow question, and denies that he argued that a "cow" was a bullock *because* a mare was a horse. Well, we give our legal friend the benefit of the doubt, and apologize, and, at the same time, we will ask him if the following deduction from his premises is not logical and strictly orthodox: A cow being a bullock, and a bullock an ox, *ergo* a *cow* is an *ox*. Ox being the male species of the bovine genus, cow must therefore be of the masculine gender. Q.E.D. We dare not put the other proposition as to a mare being a horse, because there the learned gentleman would "corral" us, "horse" being a generic term for the equine species.

WESLEYAN SERVICES—A deeply impressive sermon on the death of the late Mrs Todd was preached yesterday morning by the Rev. Mr Browning to a large congregation. In the evening, Dr Evans, the respected pastor and head of the Church, who is about to take his departure for Nanaimo, preached a farewell sermon of Christian love and wholesome counsel to an overflowing audience, taking as his text King Agrippa's remark to St. Paul, "Almost thou persuadest me to be a Christian." Most of the members of the Presbyterian Church, including the pastor, were present. Owing to the warm temperature within the building, one of the congregation fainted during the service.

FAREWELL ADDRESS.—We understand that an address is in the course of signature, for presentation to the Rev. E. Evans, D. D. on the occasion of his change of ministration. The Reverend gentleman has become endeared to a large circle of friends during his residence in this City, and in his high calling, has been a faithful and zealous worker; the fruits of his labors being visible in the advances made by the Church that he has succeeded in building up in these Colonies. The address will be presented this evening at half-past seven o'clock in the basement of the Wesleyan Church.

CATHEDRAL SERVICES—The Rev. Mr. Doolan, of the Northern Indian Mission field, who arrived on Thursday by the Otter, assisted in the ministrations yesterday at Christ Church, both morning and evening. Some natives, presumed to be members of Mr Duncan's mission at Metlakahtla, attended service last evening and caused an agreeable urprise to those near them by correctly following the responses and singing the hymns. The choir gave Nares' service in the morning and evening—the latter for the first time.

COAL—The newer coal is, in a geological sense, the poorer it is, for the coal of the carboniferous formation is much more compact and richer in carbon than tertiary and other late coals. This is unfortunate for the gold and silver-bearing Territories, for the coal of California, Colorado, and other regions in the West is young in this geological sense. It lies in cretaceous and tertiary rocks as far as known.

FROM NANAIMO—The steamer Emily Harris, Captain Frain, arrived on Friday night from Nanaimo with a cargo of coal for the U. S. steamer Saginaw. H. M. S. Scout was at Nanaimo. Governor Kennedy on his arrival was received with salutes, bonfires, and other public demonstrations. The Scout was to visit Cowichan on her way down.

ACCIDENT—A boat containing three persons capsized one day last week while crossing from Discovery Island to San Juan Island. The sloop Ocean Queen, which happened to be near and witnessed the mishap, fortunately rescued the men from their perilous condition, and, having righted the boat, started them again on their adventurous voyage.

THE STEAMER ENTERPRISE has been thoroughly overhauled and painted, and looks as gay as a peacock. She will resume her place in the New Westminster trade this week. The Alexandra will require some overhauling. Her tubes leaked badly on her last trip, and she was consequently put under very easy steam.

DISCHARGED.—The unfortunate man who was arrested for stealing a coat while in a drunken fit, from the clothing store of Messrs. Wilson & Co., was on Saturday liberated with a wholesome caution from the Bench. We understand that he communicated some information of value to the head of the department before his discharge.

REMOVAL.—Solomon Bros. beg to inform the public that they have removed to the Brick Building, Government Street formerly the Enterprise Saloon. They have received per "Mohawk," a large assortment of Men's Clothing and Under Clothing, which they will sell lower than any house in town. Give them a call. *

FROM NEW WESTMINSTER.—The steamer Alexandra, with 15 passengers and a small river express, arrived at 11 o'clock on Saturday night, having been up to Langley to bring down a number of barrels of salmon cured at the H. B. Company's farm by Mr Allard.

THE REV. E. WHITE with his family, arrived at New Westminster on Thursday, having crossed over from Nanaimo on the sloop Ringleader. The Reverend gentleman's departure from Nanaimo occasioned the keenest regret of his flock, by whom he was highly esteemed.

NEW WESTMINSTER CIVIC COUNCIL.—The new Municipal Council met at New Westminster on Wednesday evening, when Mr John Robson was elected President and Mr Thos. McMicking, clerk. The Council adjourned on the invitation of the President, to refresh at the Colonial.

VICTORIA RIFLE CORPS.—Second class firing, Monday and Thursday at 4, p. m., third class firing, Wednesday at 4, p. m., squad drill, Tuesday and Friday at 7:30, p. m. By order, J. GORDON VINTER, Lieut. and Adjutant.

ROUND THE CORNER (FORMERLY EBERHARDT'S SALOON) Langley Street, will be opened this (Saturday) evening, July 28th, at 8 o'clock, by Jacob Herkimer, who will be happy to see all his friends.

THE STEAMER ACTIVE left San Francisco on Saturday at 5 p. m. for this port; she may consequently be expected on Wednesday night or Thursday morning.

FOR QUEEN CHARLOTTE I.—The sloop Leonede will leave to-day with some workmen for the Queen Charlotte coal mine.

SALUTED.—The U. S. steamer Lincoln on arriving off Lytton Square, New Westminster, was saluted with 13 guns.

THE RACE.—The Alexandra beat the Lincoln by over an hour on the run to New Westminster on Friday.

CROWDED OUT—Two or three communications are reserved for want of space.

The Land Question.

TO THE EDITOR.—Sir,—It would be as well if people who make use of statistics, would first enquire whether those statistics are correct and applicable to the use intended to be made of them. Mr Alston at a public meeting stated that he had been struck (blind) with a statement in the *Colonist* that $686,000 was sent last year out of the Colony for articles we could raise ourselves, and $362,535 for similar things; thus leading himself and other people to imagine that these articles had been consumed in the Colony and that the gold of this colony had paid for them. Mr Alston, being a government official, who has plenty of time to make himself acquainted with facts, ought to have known that by far, the greater portion of the articles alluded to are exported from this Colony to other places, such as British Columbia, and that the money sent away to pay for them, comes from British Columbia or other places where they have been consumed. His statement therefore is not "a fact" and his statistics only mislead. If any people have a right to complain, it is not Mr Alston or the people of this Island, but the people of those countries to which those articles are sent and in which they are consumed. How does it happen then, that British Columbia, with her heavy tariff and the natural protection of the country, does not raise all those things instead of requiring them to be imported? As far as the people of this Colony are concerned they ought to be pleased at being in a position to do the trade of other places, and to derive profit therefrom, for from that profit in a great measure not only does he receive his salary but it likewise helps to support a great many others, and the country and Government generally. Then comes Dr Davie who complains that capital *from abroad* had been spent in digging gold, and the gold had been paid to people living in another land. Is there anything to complain of in this—those who supplied the capital have, it is hoped received a profit, for assuredly the country has. The people are always calling out let us have capital from abroad, but do they expect to get it excepting the capitalist can make a profit here as he can do elsewhere? He might as well have complained that the Nanaimo Coal Co., ought not be allowed to work the mines there because that company existed in England and spent the profit, if they get any, there; would the Colony be any better off if those mines were shut up? Would the Colony be any better off, if it refused to allow an American company to work the coal mine at Comax? But Dr Davie again makes a mistake the gold is not the produce of this Colony—it is not the production of this Colony—it merely comes here in *transitu* just the same as the goods for which it is in payment of. Surely he has no wish to stop so profitable a transaction. As to speculations in land, the Government sold those lands without any stipulation, it is bound to adhere to its agreement. It is another matter altogether, whether the agreement was bad; if so do not fall into the same error again, but make a law, not to allow any land to be sold excepting for the purpose of occupation. Even such a law is impracticable and could easily be circumvented, but to come to the truth, it is very doubtful whether there has been so much speculation in land as people suppose. With respect to the resolution proposed by the Doctor, the way to carry it into effect, is for him and his coadjutors to do a little more than he had done with the land they possess, for the worthy Doctor has declared over and over again that farming will pay, aye, and pay without a tariff. He has proved it upon his twelve hundred acres. Then we come to J. D. Pemberton, and it is as impossible now as it ever has been, to understand what he means or what he wants. It seems however, he would like American farmers to come here and settle. Well, the way to do that is to unite the Island to the United States instead of British Columbia, for assuredly Americans will not leave their own country for this, without; but probably, J. D. P., means the same thing, or he would have said encourage Englishmen or Irish to settle. He thinks that a tax upon wild lands, and upon lands held by absentees would do no good, and would be prejudicial, and in this he is right; but he follows it up by the queer practice, that he would tax them so much per acre, because that would have the effect of throwing the land into the market. He would tax, and he would'nt, speculators should hold land, and they should not. He wants speculators in shiploads, but he wants to force the lands they buy into the market. Well, he is not likely to get his shiploads. But singularly enough a law that will be suitable for Victoria, he does not think will be applicable for any other district, because there they want a fence law—well, a pretty good way of fencing the subject. He complains that Americans can come by water. Well, it is probable that the people of Vancouver Island can do likewise, there is nothing to hinder them, both have to get to the water, and in the latter respect, the Vancouver Islander has certainly the advantage of his American neighbor. As to roads, J. D. P., has no cause of complaint, but he may blame the Legislative Council, because they threw out the hay bill, hay being about the only thing he produces—he personally may have suffered a little, but has the country? Is it right that people who require hay should be compelled to pay more for it in order to support people in the extravagance of driving about in Irish cars—imported probably from England? Farmers like other people must work and not expect to be supported by subscriptions from the public, in the shape of a tariff for protection. Farmers do not need protection—go round the country and see how year after year, those who have cultivated their lands wisely and well, have improved; those who had but little when commencing have now their flocks and herds, comfortable house, barns, and what not: they are in fact well off compared with their former condition, and although they may not have twenty dollar pieces, they have that which is equally valuable. However much the City of Victoria may have gone down, the agriculturists have been going up, but the farmers will doubtless suffer when the population, which consumes their produce diminishes, or become poor. The fact is there are two classes of farmers who complain:—1st, the gentleman farmer, he does not work himself, and does not engage a sufficient number of men to pay himself for being their overseer—but wants to drive about in his carriage, go shooting, and so on. The other class is the small farmer who has some dozen acres under cultivation. In fact, as a rule, the smaller the amount cultivated, and the less the produce, the greater the cry for protection, and the reason is obvious, they cannot live upon the small income derived from their work. It is not a tariff that is wanted for this purpose, but more cultivated, and in some instances cultivateable land, for many have farms that will never pay tariff or no tariff. There is no doubt but that others who have not any capital will suffer much for the first year or two, that is until they raise sufficient to maintain themselves, but at the same time no farmer can expect to live by cultivating a dozen acres of land, excepting he has also plenty of stock, or cows or herds or poultry or something of that kind in addition. I am not speaking of twenty acres close by Victoria suitable for market gardening, but of say 10 or 20 miles away. Twelve acres under wheat will produce say 30 bushels per acre, or say even 400 bushels for the whole. He may receive for it $500. How can a man expect to live sumptuously upon such an amount of production? Yet many do exist, yea and some even of those make no complaint, but hope with health and strength that they will produce more in future seasons and be better off; and so they will. Now the real farmer, the man who does credit to himself and the country—the man who works, and works well and joyfully, he is the man who does not make complaints or talk about a tariff, but goes on constantly improving his condition and always has a hand to help a struggling neighbor. These are really the three clases of farmers. A Tariff is not wanted for protection, look at the price of butter, eggs, poultry and most kinds of produce? Why even the farmers themselves confess them to be high enough, but they do complain that they cannot always sell them when they wish to do so. What is the reason that more but ter, for instance, is not made? A very simple one, that there are not cows enough on the island to produce more. Very many farmers cannot get more cows, because they have not the money to buy them with, and the poorer the man the more this holds good, and that is probably the reason why five dollars per head is charged upon cows when they come to the island—a very excellent plan, indeed, of preventing butter being made. It is quite true that farmers cannot always sell their produce when it is brought to town. But is not that the case everywhere? How often, even in England, do farmers have to carry their produce back from the market on market days? Legislation will not cure this; it is a mere matter of supply and demand; but a commission agent to sell that produce, probably would, for he would watch the market. Now, it may be truly stated that where any man has a good piece of land, and tolerably clear, with industry, and perseverance, and good health, and a little luck, he will be sure to do well; but, unfortunately, much of the land is not clear, but densely wooded and poor, and in this lies the main reason for the backwardness of settlement. Hundreds have settled upon this land, but have been obliged to leave on account of the difficulties and expense of clearing, and practical men now know that it will not pay to clear heavily timbered land. Men will not slave for ten years, and starve for the greater part of that period, for the sake of a homestead at the end of that term, when they can get a farm elsewhere that they can cultivate at once. Much is said about the United States, but any one who knows anything of Washington Territory or Oregon will say that there the people do not clear woodland, but chiefly confine themselves to prairie. In Vancouver Island it costs at least fifty dollars to clear an acre of timbered land. Will any one do so who has the money, or will he invest it otherwise? How many so-called "speculators" do hold such land—to their sorrow? If it were open to-morrow, no one would settle upon it; in fact, plenty of equally good land has been open for years to pre emption, (for lands are now, as they have been, open to pre-emption,) and yet no one has taken it up, or, if they have, they have dropped it again. It is well for the Government that "speculators" do hold such land, for from it taxes are received as a sort of income. For this almost valueless land—say 100 acres—the owner pays, what? Why, nine dollars per annum road tax and one per cent. upon its value. So, supposing it to be worth one dollar per acre, he pays taxes at the rate of ten per cent. upon its value. Even if it be worth five dollars per acre, he pays about three per cent.; for it must be recollected that the land of the speculator and that of residents are taxed equally and alike. But this letter is too long. It may be completed some day.

NOTE.—When do two and two make four? When they stand for 22.

GREAT TRUTHS IN A SMALL COMPASS.—The substance of volumes of medical advice may be compressed into a sentence thus: Keep the digestive organs in a vigorous condition, the bowels regular and the liver fairly up to its work. But how to do this is the question. Puzzling as it may seem, every man and woman who is acquainted with the virtues of **Bristol's Sugar-coated Pills**, can answer the query promptly. Their extraordinary properties cover the whole ground. Is the stomach weak and apathetic? They give it vigor and activity. Are the bowels constricted? They relax and regulate them. Is the liver sluggish or congested? They bring it back to its duty. It is their office to restore the system to a natural condition, without undue force, without suffering, without any revolting nausea, and they do it. Many complaints of the organs referred to are complicated with disorders that affect the skin, the muscles, the flesh and the glands. In all such cases, that great detergent, **Bristol's Sarsaparilla**, will expedite and complete the cure. The Pills are put up in glass vials and will keep in any climate. All respectable druggists keep both medicines.

MURRAY & LANMAN'S FLORIDA WATER.—Ladies who wish to move in an atmosphere fresh with fragrance should always use this article in their toilet. A dash of it in the bath, or in a glass of water, if an odoriferous tooth wash is required, will be found eminently refreshing, and a sprinkle of it on the lace handkerchief before an evening party, will cause the fragrance of the fabric to attract more attention than even its rare embroidery. Those who are subject to faintness or sick headache in crowded rooms, will find the aroma of the Florida Water a sure preventive; but to be sure that it is genuine, see that the words "Murray & Lanman's Florida Water" appear on the wrapper and label. For sale everywhere. *

HOOLIWAY'S OINTMENT AND PILLS.—Consumption Prevented.—Influenza, colds, and fever are ever prevailing n our changeable climate. Though easily cured at first, when neglected they frequently induce serious diseases, of which the chief and most fatal is consumption. If Holloway's Pills be resorted to on the first appearance of any of these diseases, and if the symptoms be very urgent, his Ointment should also be well rubbed twice a day on the back and chest; they will cease to cause alarm, and all consumptive tendency will certainly be banished, and the body, freed from all impurities, will be left in a healthier state than it was before the illness. The Pills being free from noxious ingredients of any kind, the most delicate and timid may harmlessly take them. *

SAFETY IN UNHEALTHY REGIONS.—Wonderful cures of chills and fever, bilious remittent fever, and other diseases produced by noxious exhalations from the soil and stagnant water, are effected by the use of BRISTOL'S SARSAPARILLA. Cases are reported from the Mississippi and Ohio Valley, and from all parts of California, in which, after medical talent of the highest order had been employed in vain, this great restorative and safeguard of health has not only removed the disease, but completely enovated the sick, endowing them, to use the words of one individual rescued from the grave's brink, with a new Constitution, and rendering them proof against the effects of malaria, exposure, and all the evil influences of an insalubrious climate. In ulcerous and eruptive maladies, it is the one, the only, the infallible remedy. For sale by all Druggists.

A New and Grand Epoch in Medicine!—Dr. MAGGEL is the founder of a new Medical System! The quantitarians, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so his wonderful and all-healing Salve. These two great specifics of the Doctor are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so-called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are not of the class that are swallowed by the dozen, and of which every box fail taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant. There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disenfectant power of Maggiel's Salve. In fact, it is here announced that **Maggiel's Bilious, Dyspeptic and Diarrhea Pills** cure where all others fail. While for Burns, Scalds, Chilblains, Cuts, and all abrasions of the skin, **Maggiel's Salve** is infallible. Sold by J. MAGGIEL, 11 Pine street, New York, and all Druggists, at 25 cents per box.

A Triumph of Science
AND
THE LIGHT OF THE WORLD

Dr Maggiel's
PILLS AND SALVE,

There Life giving remedies are now, for the first time, given publicly to the world. For over a quarter of a century of private practice the ingredients in these

Life-Giving Pills!

Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and reinvigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A VERY FOUNTAIN OF YOUTH,

For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle aged, they will prove most invaluable, as a ready, specific, and sterling medicine. Here is a dream realized, that Ponce-de-Leon, sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to vigor and make youth ever

An Eternal Spring!

It was left for this day and hour to realize the dream, and show in one glorious fact, the magic that made it fair.

These Famous Remedies

Cannot stay the flight of years, but they can force back, and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as rescribed—

FOR BILLIOUS DISORDERS

Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest

Vegetable Compounds.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

—AND—

Blackwood's Edinburgh Magazine Tor y

The four Reviews re-published by Messrs. SCOTT & Co., are generally considered as the Great Reviews, and Blackwood has been justly placed in the same rank. Whoever dispenses with reading publications of this class, whatever may be his general information, will soon be altogether behind the times in which he lives—and in these times a person may soon get very far behind. They may be read and studied with advantage by the people of this country, of every creed and party.

☞ BLACKWOOD is unusually attractive at this time, to Americans not only for its serial articles by distinguished writers of fiction, but for the account of the late civil war, now being written by Col. Von Borke, a German officer, chief-of-staff to Gen. J. E. B. Stuart, of the Confederate army.

TERMS FOR 1866.

For any one of the Reviews	$4	per annum

CLUBS.

A discount of *twenty per cent* will be allowed to clubs of four or more persons. Thus, four copies of Blackwood, or of one Review, will be sent *to one adaress* for $12 80. Four copies of the four Reviews and Blackwood, for $48 00, and so on.

POSTAGE.

When sent by mail, the POSTAGE to any part of the United States will be but twenty-four cents a year for "Blackwood," and but eight cents a year for each of the Reviews.

Reduced Prices for previous years.

Subscribers may obtain the Reprints immediately preceding 1866, as follows, viz:

Blackwood from September, 1864, to December, 1865 inclusive, at the rate of $2 50 a year.

The *North British* from January, 1863, to December, 1865, inclusive; the *Edinburgh* and the *Westminster* from April, 1864, to December, 1865, inclusive, and the *London Quarterly* for the year 1865, at the rate of $1 50 a year for each or any Review.

☞ A few copies yet remain of *all the Four Reviews* for 1863 at $4 00 a set, or $1 50 for any one.

THE LEADING PERFUME OF THE AGE!

From Fresh Culled Flowers,

MURRAY & LANMAN'S
CELEBRATED
Florida Water.

This exquisite Perfume is prepared direct from Blooming Tropical Flowers, of surpassing fragrance. Its aroma is almost inexhaustible; while its influence on the SKIN is most refreshing, imparting a Delightful Buoyancy to the overtaxed Body and Mind, particularly when mixed with the water of the Bath. For

Fainting Turns
Nervousness,
Headache,
Debility,
And Hysteria,

is a sure speedy relief. The very ELITE of fashion it has for 25 years maintained its ascendancy over all other perfumes, throughout the West Indies, Cuba, Mexico and Central and South America, and we confidently recommend it as an article which, for soft delicacy of flavor, richness of boquet, and permanency, has no equal. It will also remove from the skin

Roughness,
Blotches,
Sun Burn,
Freckles,
And Pimples.

It is as delicious as the OTTO OF ROSES and lends freshness and beautiful transparency to the complexion. Diluted with water it makes the best dentifrice, imparting a pearly whiteness to the teeth; it also removes all smarting or pain after shaving.

COUNTERFEITS.

Beware of Imitations. Look for the name of MURRAY & LANMAN on the bottle, wrapper and ornamented label. Prepared only by

Chlorodyne.

CHOLERA, DYSENTERY, DIARRHŒA, CRAMP, AGUE, FEVER, RHEUMATISM, CONSUMPTION, ASTHMA, COUGH, &c.

ALL PAIN, VOMITING AND DISTRESS ceases in a few minutes after taking a dose of that wonderful SEDATIVE ANODYNE and ANTISPASMODIC remedy, CHLORODYNE, discovered by Dr J Collis Browne M.R.C.S.L., (ex-Army Medical Staff,) the recipe of which was confided solely to J. T. Davenport, 33 Great Russell street, Bloomsbury square, London (Pharmaceutical Chemist) The medical testimony of civil, hospital, military and naval practitioners pronounces it INVALUABLE It relieves pain of any kind, soothes the restlessness of fever, and imparts the most refreshing sleep, without producing or leaving any of the unpleasant effects of opium.

Earl RUSSELL has graciously favored J. T. Davenport with the following extract of a despatch from Mr. Webb, H. B. M's Consul at Manilla, dated Sept. 17, 1864:—"The remedy most efficacious in its effects (in Epidemic Cholera) has been found to be CHLORODYNE, and with a small quantity given to me by Dr Burke I have saved several lives." Earl Russell communicated to the College of Physicians, that he had received a despatch from Her Majesty's Consul at Manilla, to the effect that cholera had been raging fearfully, and that the ONLY remedy of any service was CHLORODYNE.—See "Lancet," December 31, 1864.

From W. Vesalius Pettigrew, M.D., Hon. F.R.C.S., England, formerly Lecturer upon Anatomy and Physiology at St. George's School of Medicine: "I have used it in Consumption, Asthma, Diarrhœa and other diseases, and am most perfectly satisfied with the results."

Dr. Gibbon, Army Medical Staff, Calcutta: "Two doses completely cured me of Diarrhœa."

Extract from the General Board of Health London, as to its efficacy in Cholera.

"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases"

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery." To it I fairly owe my restoration to health after eighteen months severe suffering, and when all other medicines had failed."

CAUTION.—In consequence of the extraordinary efficacy of this remedy, several unprincipled parties have been induced to vend imitations. Never be tempted to buy Cholorodyne except in sealed bottles, having the words, "Dr. J. Collis Brownes' Chlorodyne" engraved on the wrapper. A sheet full of medical testimonials accompanies each bottle. Sole manufacturer, J. T. DAVENPORT, 33 Great Russell street, Bloomsbury, London. Sold in bottles, 2s. 9d and 4s. 6d. Ju24 lyw

PILLS!

THE GREAT CURE

For all the diseases of the

LIVER, STOMACH & BOWELS,

Put up in Glass Phials, warranted

KEEP IN ANY CLIMATE.

These Pills are prepared expressly to operate in harmony with that greatest of blood purifiers, BRISTOL'S SARSAPARILLA, in all cases arising from depraved humours or impure blood. The most hopeless sufferers need not despair. Under the influence of these two GREAT REMEDIES, maladies, that have heretofore been considered utterly incurable, disappear quickly and permanently. In the following diseases these Pills are the safest, the quickest, and the best remedy ever prepared, and should be at once resorted to.

DYSPEPSIA or INDIGESTION
LIVER COMPLAINTS;
CONSTIPATION;
HEADACHE
DROPSY
PILES,

For many years these PILLS have been used in daily practice, always with the best results and it is with the greatest confidence they are recommended to the afflicted. They are composed of the most costly, purest and best vegetable Extracts and Balsams, such as are but seldom used in ordinary medicines, on account of their great cost, and the combination of rare medicinal properties is such that in long standing and difficult diseases, where other medicines have completely failed, these extraordinary PILLS have effected speedy and thorough cures.

Only 25 cts per Phial.

FOR SALE BY ALL DRUGGISTS.

THE GRAND PROMOTERS OF HEALTH.

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of all its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance and restore its normal and natural power to every organ, without inconvenience, pain or any other drawback.

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful as to astonish every one. Its pre-eminence as a remedy for billious and liver complaints and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation promoted, so that both physical and moral energy are increased,

Determination of Blood to the Head.

This is generally occasioned by some irregularity of the stomach and bowels, which, if not quickly attended to, frequently terminates fatally. A few doses of these famous Pills never fail to give tone to the stomach regularity to the secretions, and purity to the fluids. Vertigo dimness of sight and other indications of approaching apoplexy, are entirely dissipated by a course of this admirable medicine.

The Female's Best Friend

For all debilitating disorders peculiar to the sex and in every contingency perilous to the life of women, youthful or aged, married or single, this mild but speedy remedy is recommended with friendly earnestness. It will correct all functional derangements to which they are subject.

Scrofula and all Skin Diseases.

For all skin diseases, however inveterate, these medicines are a sovereign remedy While the Pills act upon the blood, which they purify, the ointment passes through the pores of the skin, and cleanses every structure, as water saturates the soil or as salt penetrates meat. The whole physical machinery is thus rendered healthy, regular and vigorous

Coughs, Colds and Asthmas.

No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthmas has appeared these Pills may be relied on as a certain and never failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat night and morning.

Indigestion—Billious Headache.

These complaints may sometimes be considered trifling but it should be borne in mind that by inattention and neglect, they often end most seriously. Give early thought to a deranged stomach take Holloway's Pills, rub his celebrated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvement, though it may be gradual will be thorough and lasting.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague	Female Irregularities	Scrofula King's Evil
Asthma	Fevers of all kinds	Sore Throat
Billious Complaints	Fits	Stone and Gravel
Blotches on the Skin	Gout	Secondary Symptoms

LIFE DEPARTMENT.

This Institution accepts proposals at the rates of premium applicable to Europe, which on examination will be found more advantageous than those charged by other Offices having Agencies here. It unites all the advantages of a Mutual Association with the security of a Proprietary Company. The Participation Branch is conducted by the Proprietors of the Company for a charge of 10 per cent. on the premiums, without any other deduction whatever. Thus the assured enjoy the profit WITHOUT THE LIABILITY of the Mutual System.

The participation in profits has been most liberal. Should claims arise before the next investigation, a prospective bonus of nearly 1½ per cent. is allotted.
